Service Letter

Section EG 120-1

SUBJECT:

Replacement of the CU 671B - 500 Series Speed Control Unit

The United Technologies Diesel System CU 679B - 500 series speed control units can be used as a replacement for United Technologies Diesel System CU 671B - 500 series speed control units.

All that is needed to make a retrofit is a jumper wire between terminals E and G of the CU 679B - 500 series control unit.
