MODEL 50 PUMPS FOR ONAN DJ SERIES ENGINES

PRODUCT AFFECTED: PSU pumps

REASON FOR BULLETIN:

To identify the Model 50 pump specs which supersede the earlier PSU pump specifications.

INFORMATION:

The Model 50 pump has been released to production for use on ONAN DJ series engines. This pump model supersedes

the PSU pump which was previously used in these applications. Service parts for the PSU will, however, still be available.

The following table lists the PSU pump and the Model 50 which supersedes it:

PSU PUMP	SUPERSEDED BY	MODEL 50 PUMP
PSU 2/4A-80E-9328A (even fire)		50-2/4A-80A-9540A
PSU 2A-80E-9167A (even fire)		50-2A-80A-9541A
PSU 4A-80E-9168A (even fire)		50-4A-80A-9542A
PSU 2A-80E-9169A (odd fire)		50-2A-80A-9543A
